CERTIFIED PUBLIC ACCOUNTANTS & TECHNOLOGY CONSULTANTS

Connolly, Steele & Co.

Whether dealing with one person or a large business, we know that good service depends on

BUILDING RELATIONSHIPS
of understanding and trust.

At Connolly, Steele & Co., we set ourselves apart by helping individuals and companies of all sizes manage financial matters to maximize net worth and profitability.

Our new computer systems consulting division supports your technology needs above and beyond our state-of-the-art bookkeeping systems. Our experts can guide you to the best combination of hardware and software to achieve all of your information and communications goals.

Connolly, Steele & Company, P.C.

...integrating experience and technology

accounting

Connolly, Steele & Co. is a full-service certified public accounting firm whose principals share more than 40 years of public accounting experience. We serve corporations, partnerships, sole proprietorships and not-for-profit corporations in the communications, construction, hospitality, manufacturing, medical, retail, service and wholesale industries.

A small but growing firm whose members have extensive experience in helping small businesses and individuals achieve their financial goals, we use a team approach to help our clients maintain a clear focus on their objectives and the best way to reach them.

Connolly, Steele CPAs are active members of the American Institute of Certified Public Accountants (AICPA) and the Pennsylvania Institute of Certified Public Accountants (PICPA). Our continuing quality control program includes regular peer review of our accounting and auditing practice. These reviews are always available to our clients.

technology

We help our clients make the most of today's technology to track their finances, file their taxes and make important economic decisions.

Our staff is trained in QuickBooks, and our accounting clients also have access to on-line bookkeeping services through an active server page (ASP) that allows for secure data entry and information submission from any computer in any location with internet access. This allows for extreme flexibility and accessibility for even the most active clients.

Connolly, Steele's newly formed computer systems consulting service also supports clients' technology demands with hardware and software installation and long-term service. These services are available to our accounting clients as well as to separate clients with existing CPA relationships but their own pressing technology needs.

On the technology side, Connolly, Steele provides expert assistance in system set-up, network administration, hardware and software installation and upgrade, virus monitoring and continuing maintenance services.

our people

Connolly, Steele clients are served by an expanding staff of capable, responsive practitioners who can inform and advise on a broad range of financial and technological topics. Our principals include:

Elizabeth "Li" S. Connolly, CPA

Li began her public accounting career in the audit department of Touche Ross (now Deloitte & Touche). After several years as Controller for Longue Vue Club, she returned to public accounting in 1996, joining her father, Lewis Steele, in founding Connolly, Steele & Co. Li's varied experience encompasses auditing and accounting, tax matters, and tax and financial planning for businesses and individuals, and business start-ups. She is a graduate of Duquesne University with a Bachelor of Science degree in accounting.

Michael J. Connolly, Jr.

Mike started his technology career in 1986 with Mellon Bank, where he served in various roles from system implementations to systems development. After serving as Technology Director at Pennsylvania Capital Bank, he started his technology consulting career in 2001. He specializes in network systems implementations & support, accounting application support, computer & network troubleshooting and preventative maintenance.

Mike is a graduate of Duquesne University with a degree in Management Information Systems. Mike is a Microsoft Certified Professional and a registered Microsoft Partner.

Lewis M. Steele, Jr. CPA

Lewis started his public accounting career in 1972 with a Sewickley firm specializing in tax matters. Later a sole practitioner and then a partner in a large regional firm, he currently serves as a financial executive in the transportation industry, as well as a founding principal at Connolly, Steele & Co. Lewis is experienced in accounting and auditing, tax matters including tax advocacy, tax and financial planning for businesses and individuals, business start-ups, mergers and acquisitions, and litigation support.

A graduate of Davidson College, Lewis spent several years working in the construction and insurance industries before graduate training in accounting at Duquesne University.
